

Crops in District Doing Well Though Rain Needed

Wireworm Damage Around Blackfalds Causes Losses Up to 15 Per Cent; Outlook Much Better Than Last Year

Outworms in the Lacombe District are causing severe damage to some crops and not touching others while the weather is suffering severely from worms. This is the main item of information gathered when the Lacombe Globe made a survey of crop conditions in the Lacombe district proper. Wire worms are causing damage running up to fifteen per cent in some fields in the Blackfalds district, with some gardens in the same locality being almost a complete loss. Rain is needed, with crops in light soil in some localities already beginning to suffer from lack of moisture. Sub-soil moisture seems ample for immediate needs, but surface moisture is being rapidly lost through the hot winds of the past few days. Crops, on the whole, are ahead of those of last year, notwithstanding the worm damage. Several farmers report the wheat standing well, while early sown grain is in the shot blade. Reports of wheat already heading have also been received.

Sample of Wheat Two Feet High

A sample of Improved Rembrandt wheat, measuring over two feet high, was brought to the Lacombe Globe office early this week by Glen White. The wheat was sown the last week in April by Fred Blake on Mr. White's farm, four miles west and one-half mile north of Lacombe. The wheat had stood well and heads are already forming.

Seventy acres of this wheat were sown, 33 acres on newly broken land and the remainder on summer-fallow. It is a good stand and Mr. White has high anticipations of a good crop.

Good Livestock for Lacombe Fair

Plans for a bang-up two-day fair are rounding into shape, and a break in the weather, promises to be one of the best fairs yet held. There is more activity in the livestock entries than in the best stock in the district will be shown. Farmers are taking more interest, which is needed to put the fair back on its feet. Altogether the directors feel much enthused. With the Government cutting its grants to the minimum, the prizes are naturally not what they were in the old days, but are still worthwhile, and the wholehearted support of all the farmers of the district is earnestly hoped for. The midway, with its big ferris wheel, other rides and shows, will be much better than in previous years, providing fun for young and old.

A new innovation this year will be a "night floor show," held in conjunction with the dance on Friday night in the Central Alberta Pavilion, which nine acts of singing, comedy, contortionist, tumbling, adagio and tap dancing numbers will be presented. It is to be a 40-minute show of real merit, given by some of the best artists in Alberta, under the direction of Mrs. J. Jordan of Edmonton. No additional charge is being made for this entertainment, which is included in the price of admission to the dance.

Softball Tournament
The softball contest on Saturday is attracting some of the best teams in the district, and keen competition will be evident before the prize-winning teams are decided. A full program of sports giving prizes for the children will be run off on Saturday afternoon, and many schools in the district are sending their pupils to take part. A full list of events will be published shortly.

Saturday night, a jilney dance will be held in the Pavilion. Arrangements are at present under way to engage a big seven-piece orchestra with amplifying equipment to play for the two dances. A loud speaker equipment has been engaged for the two days, which will be used to provide music and entertainment for the sports. So come and enjoy yourself; plan now to attend the 43rd annual Lacombe Fair on July 15 and 16.

Musical Recital to Be Presented in Pavilion Friday

An interesting and varied program has been arranged for the musical recital to be given by the pupils of Mrs. P. H. Reed and Miss Brenda Reed in the Central Alberta Pavilion on Friday, June 24, starting at 8:15 p.m. The program will consist of piano, song and rhythm band numbers, and pupils will be present from Lacombe, Bentley and Red Deer. Everyone is invited to attend as the presence of a crowd will encourage the young performers. Admission is free.

Production Tax Explained By Norman F. Priestley

Claims Proposed Tax "Unworkable, Inequitable and Unjust"; Would Wrest Control From Municipal Districts

"The Agricultural Land Relief Act (commonly known as the seven-cent production tax act) will revolutionize the system of taxation in rural communities, if put into effect." This was a statement made by Norman F. Priestley, vice-president of the United Farmers of Alberta, at a meeting held under the auspices of the Lacombe and District Board of Trade in the Central Alberta Pavilion Wednesday night. Close to 150 farmers and residents of the town and district turned up to hear a comprehensive explanation of the terms of the act, and how these terms would affect the farmers of the Province. J. S. McCormick, president of the Board of Trade, acted as chairman of the meeting, and made it quite clear in his opening remarks that the meeting was called for the express purpose of leaving the terms of the act, and their effects upon the farming community. He urged that those present confine themselves to the act alone, and engage in no personalities or political argument.

Mr. Priestley interpreted in his own words each clause of the act, analyzing the phrases at length to show their exact meaning. He commented on the feasibility of the act, declaring it to be "unworkable, quite inequitable and quite unjust." The speaker then enlarged on these statements, pointing out that the size of Alberta itself, combined with the diversity of products produced here, made the taxation scheme unworkable; the act was inequitable and unjust, he went on to say, because its very terms placed a premium on an industrious and scientific farmer, and at no place in the act was there any provision made to take into consideration the differences in costs of producing and marketing farm produce in various sections of the Province.

Mr. Priestley gave evidence throughout the speech to show that the act was "revolutionary" in its nature, the effect of being prepared in haste. The speaker also saw cause for alarm in the loss of local control on taxation, control now given through the power of the municipal councils to levy taxes against farm lands in their community. "There seems to be a tendency," he said, "to wrest control from the councils and invest that control in a centralized government—loss of local control is not democracy." The speaker.

A question period of close to one hour followed the speech. A vote was taken to decide whether or not the meeting was in favor of writing a resolution pertaining to the act, but it was decided that the meeting was for educational purposes only, and the resolution was not presented. The meeting was called by a committee appointed by the executive of the Board of Trade to provide some reliable source of information regarding the measure discussed. Production Tax Act for the residents of the district. The committee consisted of H. E. Wilson, J. C. Cruikshank and H. E. Wilson.

L. P. MINKLER ELECTED TO EXECUTIVE OF UNION

L. P. Minkler, secretary-treasurer of the Town of Lacombe, was elected to the executive committee of the Union of Alberta Municipalities at the annual convention held in Calgary last week. Mr. Minkler, who with Councilor W. Avery represented the Town at the convention, replied to the address of welcome given by Mayor A. Davison.

Rimbley Team Shatters Record In Breakaway

RIMBLEY—A thrilling runaway provided excitement here last week-end, when a team heeled to Elwood Chiles showed their prowess in a breakaway by kicking up their heels and upturning the democrat. No one was hurt as the team scrambled their way on high, starting at Donnelly's general store, rounding the corner at the Rimbley drug store and passing the creamery under a full head of steam outside of a wrecked democrat no harm was done.

MUSIC EXAMS HELD IN UNITED CHURCH

Musical pupils from many points in Central Alberta gathered here Monday and Tuesday of this week for a talent contest of the United Church of Canada, held in the United Church. Students from as far east as the Community of Music, Toronto, held the annual Conservatory examinations in the United Church. Students from the Community of Music, Toronto, held the annual Conservatory examinations in the United Church. Students from the Community of Music, Toronto, held the annual Conservatory examinations in the United Church.

BIRTHS AT THE COMMUNITY HOSPITAL

Born to Mr. and Mrs. Lloyd Walker, Lacombe, a daughter, on Tuesday, June 21.

Aces Cop Town Softball League Championship

By Jack McCaugherty

Blasting through with two straight wins on Monday and Tuesday nights, Town Aces turned aside the league-winning Flyers to capture the 1938 Lacombe Softball Championship. Finishing second in the current season, Aces came through the bruising semi-final with three hard-fought games with Cardinals, and then swept on to defeat the Flyers one-two in the final.

It was the fourth victory for the winners in the past week and a very successful season closes with the championship resting with a hard-fighting, deserving team.

Bunching three hits and two errors in the fourth inning, the Aces ran in five runs to clinch their second straight victory in the finals over the Flyers Tuesday night, 11-8. Although Flyers were heavier on the batting, the hits were well scattered and the winning margin came from their six errors.

After taking an early lead and having it all tied up at the end of the first of the third, the champs came back to outscore their opponents in the remaining innings and it was all over but the cheering as last bats failed to produce a Flyer run. Both teams collected a triple, four doubles, and six singles as K. Irish of the Flyers led the hitters with three clouts in four trips to the plate.

Won First Game 9-6
Aces won their first on Monday night when Brooks pitched six-hit ball for a 9-6 victory. Making a brilliant attempt for a win, Flyers, after being held by four hits and no runs in eight innings, scored six runs in the last half of the ninth but fell short of their bid. Two hits and four errors scored four runs and two

Aces Capture Semi-Finals From Cardinals

Coming back strongly after dropping the first game of the play-offs to the Cards, Town Aces flashed through with two sparkling wins in the final games played on Thursday and Friday nights to advance to the finals of the Commercial Softball League. Timing their hits carefully and taking full advantage of errors in the pitches, the Town boys rallied in both games to come from behind to take the semi-final honors, and the right to meet the league-winning Flyers for the Lacombe championship.

A well-hit single by Carter, scored by the Cardinal shortstop, permitted Aces to score from third, was the slim margin that gave Aces the 9-6 win in even the series at one-all on Thursday night. With rallies in the sixth and seventh to tie the score at eight-all, the Aces went on to add the winning run in the last of the ninth and the game was over. Cards made a brilliant start for victory with a six-run spurge in the sixth, only to have their lead wiped out by their rivals, Brooks limited the Cards to seven hits, while his teammates collected 12 safeties from Minkler.

Score by Innings: R. H. E. Cardinals, 000 010 010—8 7 0 Aces, 005 001 201—9 12 8 Minkler and Sage; Brooks and Brink.

CAME FROM BEHIND
Trailblazing by two runs going into the last inning of the final game on Friday night, Aces stepped out and battered six hits for six

SHOWER HONORS
Miss Helen Sage

Complimenting and surprising Miss Helen Sage, who has been teaching the district school for the past three years, residents of Spring Valley District, numbering over one hundred and fifty, gathered in their hall on Friday evening, July 17, to show their esteem and appreciation of her efforts during her stay among them.

Miss Sage, who is to become a bride in the late summer, was "showered" with the memorable beautiful gifts for which she graciously expressed her thanks. N. E. Brooks, one of the School Trustees, made the presentation. Several hilarious games and contests, followed by the presentation and a delicious lunch, made a pleasant and enjoyable evening.

Mrs. Watt Keith acted as master of ceremonies for the evening.

This Week's Thought

A cottage of content is better than a castle of cold splendor.

The Lacombe Globe stands for:

1. The advancement of Lacombe and district in agricultural, industrial and community life.
2. Free democratic government in Alberta.
3. Reduction of taxes and the public debt through the medium of safe, sane reform.
4. The abolition of direct relief through the protection of public works.
5. Better roads for Alberta.

THURSDAY, JUNE 23, 1938

An Important Service

THAT the various rural communities throughout Alberta view with alarm the closing of branch banks in their respective localities, is something that the Social Credit Government some time ago has been brought on by themselves. The persecuting tactics they have practiced against banking institutions could be no longer tolerated. It has come to a showdown. Taxing the banks out of existence has brought the public face to face, with the possibility of losing this service, and has resulted in an uproar in the Province. The activities of the Alberta Government, have now forced the banks to close many branches which were serving the public, in spite of the fact they were being operated at a loss. A total of nine branches (some in operation since 1904) have already closed in several towns within recent weeks, and the end, seemingly, is not yet. It is likely prosperity will have to return in good measure before the branches open again.

It is only when the public find banking facilities not available that the full force of what they mean to the business life of a community, is recognized. The Lacombe and District Board of Trade did a real service to this locality when they circulated petitions which were signed by this town's 1934 voters, to request the banks be relieved of the discriminatory legislation recently enacted by the Alberta Government. It should impress the banks located here, that the actions of our legislative body, are not condoned by a large number of people in this district, who have no desire to lose the banking facilities now offered in this town. After creating the trouble, it seems farcical that the Alberta Government should appeal to Premier King to prevent the closing of bank branches in Alberta.

No Other Recourse

THE decision of the Supreme Court of Canada in declaring ultra vires the recent acts passed by the Alberta Government was anticipated by the citizens of Canada. Such acts as those passed by the Social Credit Government here would have given Premier Aberhart and his Legislature power to confiscate privately owned interests, and would have placed in his hands the authority to tax citizens residing outside the Province.

It is odd that the present Provincial Government should so often have to be told by the Federal House and the Supreme Court of Canada that legislation passed by a democratic government must be democratic in principle. For the past two years the present Legislature has attempted to put into force discriminating laws against certain businesses; they have attempted to limit the freedom of the press—and each and every time their legislation has been nullified by the Dominion Government or by the Supreme Court of Canada.

One wonders whether our Legislative members have learned anything from these setbacks. Man is said to learn by experience. Heaven only knows that Premier Aberhart and his cabinet ministers have learned by experience that neither the Douglas theory of Social Credit nor the new theory called Social Credit as devised by Premier Aberhart is workable in a Province of Canada. Yes, our Government members have had their experiences, but have they learned?

One also wonders just how much the Alberta electors have learned by the past twenty months of "Social Credit" policies.

One would almost think that they are deliberately framing legislation that they know will be declared ultra vires, to use it as an excuse for their failure to institute Social Credit in Alberta, and further delude their followers.

Unprecedented Persecution

THERE is no precedent in either ancient or modern history for the relentless persecution of the people of Jewish origin now being carried on by Hitler in Austria and Germany. Historians who have delved into the persecutions of minorities in the days of the Romans tell us that all previous persecutions against unwanted persons fade into insignificance when compared with the cruelties imposed by Herr Hitler and his terrorists, on those whose only sin seems to be that they have had the misfortune (?) to be born of Jewish parents.

The chief opposition to this ill-starred race seems to arise from their business-grabbing methods, of which Hitler is not the first to complain. Jewish money has been a terror to the side of many noted Americans, including Henry Ford, who have protested long and loud of the stranglehold which members of the Jewish race have on the money-bags of the world. Government control of the activities of these financial tycoons has been advocated from time to time, and perhaps that would go a long way towards solving the problem.

Be that as it may, there is no excuse whatever for dooming these people and their children

Through the Eyes of a Country Woman

By BRIDGET

During the past week I had the privilege of hearing Dr. McGowan of the Ponoka Mental Hospital speak. It is a pity that his talk, which only lasted an hour, could not have been broadcast, so that more mothers might have heard it. It was full of helpful facts and information. One picture that he drew, however, was so unpleasant that it is liable to leave a lasting impression on all of his listeners.

He visualized 17,500 little children wending their way, next fall, for the first time, to their respective schools. Out of these 17,500 little children, 4 per cent will eventually find their way to a mental institution, or have to be examined and guided by mental doctors. Isn't that ghastly? Four per cent of this figure means one in every twenty-five. Seven hundred fresh mental cases are reported each year. One in twenty-five means, to bring it right home, one in every large-sized school district. Isn't that appalling?

What impressed me most in Dr. McGowan's talk was that he discussed preventatives rather than new ideas. It appears to me that this course—like so many other things—has been reduced to lack of knowledge or education along certain lines. It is dreadful to pause a minute and remember the little children in this Province who are mentally deficient. There are so many, and in the name of goodness, why? A fresh land, full of new ideas, high ideals, abundant opportunities. Why should it be cursed with mental deficiency, insanity? Beautiful little bodies with vacant eyes; lovely faces and useless limbs—doesn't it make one's heart bleed? If a certain percentage were not avoidable, educators would not worry so much. It is that certain avoidable percentage that is so greatly worth working for.

Dr. D. J. McCullough, of the Provincial Training School at Red Deer, when addressing the U.F.W.A. Convention in 1936, made one or two statements which are very apropos in this connection. He said, speaking of paralysed defectives: "Some have been paralysed as the result of injuries to the brain at birth, or as the result of whooping cough, measles of the brain, or other preventable causes in infancy." He stated, "Some have been allowed to become deformed from long continued faulty posture," and further added, "many of these crippled cases are . . . the result of preventable causes."

Despite quarantine laws, many individuals do not hesitate to go wherever they wish to, with the most contagious of diseases raging in their homes. I am afraid the rural population are the most guilty in this respect. In this connection I can give a very dreadful illustration. A girl, on arriving late at a dance in a community hall, excused herself, saying it had taken her so long to pick off the scabs (scarlet fever), and get them powdered over so that she could at least come looking half respectable. Many otherwise well-educated people will try to evade quarantine laws, by saying THEIR children are not really very sick, and they don't like the loss of school-time involved. But—it is well to remember, in this respect, that what one child might have a communicable disease lightly, and with no ill effects, this same child may give the same disease to another child, who might take it severely, and be left with bad eyes, deafness, rheumatism, etc., etc.

So, it would appear that there is still a lot of educational work to do on this most vital subject—health. It seems hardly possible in this era of radio, clinics, and free consultation pamphlets that such ignorance can be possible. It is though, and I wonder if it is not something in which we women can play a very prominent part. What is the use of these thousands of crippled minds and bodies, an army of living dead, too poignantly pathetic to dwell on too long?

Thinking along this line, during last week brought to my mind one of the finest women living in Canada today—our own Mrs. Parilly. I say "our own," as she lives not so far away, at Alix. She has, for many years, championed the cause of health and education, and did so very ably, for fourteen years, in the Legislative Assembly. When I heard that her name had been perpetuated by being engraved on a plaque in the Parliament Buildings at Ottawa, together with the names of four other prominent and pioneer women, I felt what a privilege we women in this Lacombe Constituency had had. She was, and I am sure, still is, vitally interested in women's problems, and in the subject of peace. The Hon. R. B. Bennett chose her, an Alberta Farm Woman, a Minister Without Portfolio in one of the very few former Governments the world has ever seen, to be one of Canada's representatives at Geneva. Her work still lives on, and will do so forever in the history of Alberta. With her example before us, we should be encouraged to make uniring efforts to free Alberta from this scourge. It is only through education that a full comprehension of the value of inoculation, vaccination, and other preventatives will be inculcated in the minds of the general public. Individual effort can accomplish but little—it is through our organizations, which many of us support all too little, that real progress can be achieved.

EXAMINATION QUESTION

Jones: What's your son going to be when he passes his examinations?

Smith: A very old man, I'm afraid.

"Is there not a danger that we have become so accustomed to the orderly use of the freedom we enjoy that we treat it as we do the daily wonders of nature, taking it for granted that nothing can disturb their operation?" —H. on Charles A. Dunning.

to poverty and disgrace in the manner practiced by Hitler. The memory of these atrocities against these unfortunate human beings will go down in the pages of history, to be recalled long after this King of Persecutors has been returned to the earth from which he sprang.

Privy Council Appeal Aberhart's Last Hope

By W. M. DAVIDSON

The election in Saskatchewan marks the beginning of the end of the Social Credit movement as a political force in any part of Canada. That conclusion is so obvious to all unprejudiced persons that additional comment is unnecessary, but to make it perfectly plain I shall explain the reason for that judgment.

The real meaning of the verdict in Saskatchewan is that Canadian people will not yield to the fantasies of the Douglas theory. If after all the blarneying of Mr. Aberhart and the efforts of his associates in their whirlwind campaign, in a near-by Province, which was specially prepared by propaganda and organization to receive the gospel, 85 of every 100 people declare that they want none of the Aberhart remedies, then there is little chance of the movement expanding past the Alberta boundaries.

"Toss the Same in B.C." In British Columbia, it may be recalled, the electors voted to the polls recently, without any of the whirlwind ballyhoo, and there 99 of every 100 declared against Social Credit. That is probably a fair representation in most of the Canadian provinces. Had Mr. Aberhart been hopeful of applying Social Credit to Alberta successfully, he would have remained by his knitting and confined his attention to his own Province. His only reason for invading Saskatchewan was because he knew that he could do nothing towards fulfilling his promises in a Province and planned the wider field as a beginning for a national campaign. He has got his answer. Social Credit will never be an issue in Canada.

Mr. Aberhart has learned long before this time what many better informed persons told him during the Alberta election campaign, which was that his plan could not be applied in a Province—incorrect. He has come at nearly admitting such an evident truth, as one can expect him to do.

So then we have Mr. Aberhart now completely hotted up. The Canadian Constitution prevents him from applying his theories to a Province—and here I may add that he is very unfair in declaring that it is Mackenzie King who stands in his way. Mr. King can no more change the constitution than can Mr. Aberhart. On the other hand, the Canadian people have indicated their lack of interest or confidence in his plans and give no hope of a national movement.

Came to Full Stop Mr. Aberhart has accordingly come to a full stop. That recalls the promises that he made during

Calgary Exhibition Set for July 11-16

Rated as one of the most spectacular and colorful shows of its kind on the Continent, the Calgary Exhibition and Stampede will open its 53rd annual event on Monday, July 11, and continuing to Saturday, July 16, with an extra day of races, Saturday, July 16. This year's famous Western show annual attracts well over 200,000 people from all over Canada and the United States. This year's program is destined to outshine all other circus shows, both in entertainment and educational value.

The Stampede proper will take place every afternoon in front of the Grandstand. Between five and six hundred entries, including many of the world's greatest riders, will participate.

The "Revue Internationale" is the title of the stupendous grandstand performance to be presented before the evening audience. It's a grand, colorful, musical extravaganza, featuring a combination of outstanding acts with some of the cleverest vaudeville stars and performers in existence.

Paralleling the Stampede in importance and interest will be the thousands of industrial and domestic art exhibits featured in the show buildings on the grounds.

Brilliant, Colorful Midway The midway this year is larger than ever. Two great trainloads of new rides . . . new settings . . . new lighting effects will lend a carnival atmosphere to the show. Every square yard of the spacious grounds is dedicated to education and entertainment, and special events and displays have been arranged for uptown as well.

This year the horse racing meet opens Saturday, July 9, and will continue Monday to Saturday, July 16. Seven races will be run off each day.

the Alberta campaign three years ago. Then he promised in a solemn, clear-cut definite pledge that he would install Social Credit—which he interpreted roughly as a dividend of \$25 a month to every adult—and do this within 18 months or get out. He made that engagement so definitely, so positively, and was elected to office on the strength of it so obviously, that no honest man, who has any respect for his fellows, can do less than fulfill his promise and retire.

The electors have been very patient. They have given the Government not 18 months but nearly twice that time. They have seen him bawling in administration, increasing the cost of administration, isolating the Province, driving away capital, disorganizing the services, putting the Province into bankruptcy and refusing to pay its debt, introducing fantastic legislation which had no hope of being accepted as constitutional, and failing in almost every attempt.

But now the end has come, or is rapidly approaching. The Supreme Court of Canada has declared by unanimous agreement of its members that the Social Credit legislation planned by the Government cannot be applied to a Province. Mr. Aberhart has appealed to the Privy Council. If the Court of final decision upholds the Canadian Court, Mr. Aberhart, as an honorable man, must retire from office or lose the respect of all honest Canadians.

Milton

(From Our Own Correspondent)

MILTON. — Vernus Rubottom and Dick Brissard motored to Edmonton recently, Charley Brissard is visiting at the Rubottom home.

The resignation of Miss Nellie Coyle has been handed in to the School Board, and was accepted with regret.

Mr. Chadwick has finished some breaking on Mr. Dawson's farm.

We are glad to report that Mrs. Healing is feeling much better after her illness.

We notice a big improvement in the road north of Milton school. This road was in bad shape and certainly needed the work that has been put on it.

A farewell party was given at the home of John Lee in honor of I. Miller, who left recently for Calgary, where he is to be married.

GRAIN IN CANADA Total stocks of grain in Canada as at March 31, 1938, were estimated as follows: wheat, 84,160, 385 bushels, as compared with 115,212,298 bushels at the corresponding date in 1937; oats, 77,927,249 bushels, compared with 80,092,113 bushels in 1937; barley, 25,727,624 bushels, compared with 19,756,277 bushels in 1937; rye, 1,284,350 bushels, as against 1,244,919 bushels in 1937, and flaxseed, 527,289 bushels, compared with 888,350 bushels in 1937.

This year's famous Western show annual attracts well over 200,000 people from all over Canada and the United States. This year's program is destined to outshine all other circus shows, both in entertainment and educational value.

Why is Life Insurance So Safe?

Answer.—Because the institution of Life Insurance is built upon a sound actuarial basis, and upon the investment of the accumulated funds of policyholders in loans to governments and municipalities—for building homes and schools—for improving farms—for constructing good roads and transportation systems—for developing industries and public utilities.

Question.—How is the safety of these funds guaranteed?

Answer.—By the security of the governments, municipalities and properties upon which the loans are made—and the financial responsibility of the borrower.

Q.—Are there restrictions as to what type of investments Life Insurance companies may make?

A.—Yes, all investments are subject to strict governmental regulation.

Q.—What is the total amount of Life Insurance funds invested in Canada?

A.—More than Two Billion Dollars.

Q.—Has Life Insurance in Canada fulfilled every guarantee 100 cents on the dollar?

A.—Yes, even through wars, epidemics and worldwide depressions.

This is the ninth of a series of messages sponsored by Life Insurance Companies operating in Canada. The tenth, to appear in two weeks' time, will discuss how women and children benefit from Life Insurance.

Around the Town

Mr. and Mrs. A. R. Holton of Shiocton, Ont., are guests of Mr. Holton's brother, George R. Holton, for a few weeks visit.

Mrs. Agnes Munce left Tuesday for Lancaster, England, where she will visit with her daughter, Mrs. Williams. She sails on June 24 on the SS. Duchess of Athol.

Mr. Malcolm Watt returned home from the east over the weekend and will stay with his parents, Mr. and Mrs. Herb Watt, for some time.

Mr. Horace Seller was a weekend visitor in Edmonton, visiting his family there.

Mrs. W. L. Walters entertained at tea for a group of her friends on Friday afternoon.

Mrs. George Mackler entertained at a delightful tea on Thursday in honor of her house guest, Mrs. W. H. Ister of Winnipeg.

Perry W. Pratt made a business trip to Calgary last Monday.

Mr. and Mrs. J. Edgington, accompanied by Mr. and Mrs. O. J. Simons of Thorbay, left Sunday for a three weeks' holiday trip to coastal points. In Vancouver they will visit Mr. Edgington's parents, Mr. and Mrs. G. Edgington.

William and Harry Twenty of Elk Point, Alberta, were visitors with Mr. and Mrs. Ted Danner over the weekend. Miss Kate Twenty, who has been visiting with Mr. and Mrs. Danner for a short time, returned home with them.

Mr. and Mrs. Howe and Frank Raymond of Three Hills visited with Mr. and Mrs. Charles Raymond over the weekend.

Mr. Harold Henkel visited in Calgary over the weekend.

Mrs. M. Godfrey of Edmonton spent last week-end visiting at the home of Rev. and Mrs. A. L. Carr.

Miss May Beulow spent the week-end in Edmonton.

Mrs. F. W. Locke of Calgary returned to her home on Monday after spending a few days visiting with her son and daughter-in-law, Dr. and Mrs. F. D. Locke.

Miss Jessie Loree of Edmonton is visiting with Mrs. E. H. McCaugherty for a few days.

Mr. and Mrs. Douglas Gilmour and family of Trochu spent last Friday in Lacombe. They left on Saturday, accompanied by the former's mother, Mrs. David Gilmour, for Vegreville, where they spent a few days visiting Mr. and Mrs. J. Fleming Gilmour.

Come to the Musical Recital in the Central Alberta Pavilion on Friday evening, June 24, at 8:15. Free admission. Everyone is invited.

The engagement is announced of Winifred Mary Caroline, only daughter of Mrs. Winter of Lacombe and the late Mr. Presgrave H. Winter, to Mr. Ernest R. Lamm of Calgary, youngest son of Mrs. Lamm of Basle, Switzerland, and the late Mr. Herman Lamm. The wedding will take place July 7 at St. Stephen's Roman Catholic Church in Lacombe.

Mr. and Mrs. H. J. Ford motored to Edmonton last Friday, returning on Saturday. Mr. Ford attended a business meeting in that city.

Mr. and Mrs. Leslie Loree of Nanton, Alta., were visitors at the United Church Manse Tuesday and Wednesday of this week. Mr. Loree is a raiser of purebred stock and carried off the Grand Champion prize in the brood mare class at the recent Calgary fair.

Mrs. A. M. Campbell and daughters, Mrs. M. H. Halton and Mrs. H. W. Schmidt, motored to Edmonton on Wednesday for a visit.

Mr. and Mrs. Alfred Cook and daughter Evelyn and Mrs. Olive Jones of Salem, Ore., are spending a few weeks at the homes of Mr. and Mrs. R. N. Longstreet and Mrs. E. A. Baines.

A strawberry festival will be held on the paragon grounds of the United Church on Friday evening, June 24.

Charles Hunt is having an addition built on the house which he bought recently.

Mrs. J. Tees was taken to the Lacombe hospital last Friday. We all wish her a speedy recovery.

NEWLYWEBS TO SETTLE HERE AFTER WEDDING
Miss Helen Earl, whose marriage to Mr. Fred Waldern of Red Deer will take place at the end of the month, is visiting with cousins in Edmonton, Saskatchewan, until the time of her marriage. After the wedding ceremony, Mr. and Mrs. Fred Waldern will reside in Lacombe.

Charles Hunt is having an addition built on the house which he bought recently.

Mrs. J. Tees was taken to the Lacombe hospital last Friday. We all wish her a speedy recovery.

Blackfalds

(From Our Own Correspondent)

BLACKFALDS—The following record of rainfall for Blackfalds will be of interest to local farmers (taken from the records of the Searle Grain Co., Ltd.):

Week ending June 15, 1938 4.31
April 1 to June 15, 1938 4.31
April 1 to June 15, 1937 2.72
Long-term average 4.56

Mrs. Mathias was well enough to leave the Lacombe Hospital last Tuesday and is now resting comfortably at home. Her sister, Mrs. Thompson of Coronation, is now staying with her, having arrived about two weeks ago.

A pleasant dance was held at the hall last Friday night, and a quilt given by Mrs. Ted Stephenson to the lucky ticket holder was won by Clarence Peterson. At the same time, a drawing was made for the Crusaders' erik quilt, which was won by Mrs. Farewell. A most enjoyable evening was spent by all present.

Shower for Bridge
Last Saturday afternoon, a shower was held at the home of Mrs. Fred Miller in honor of Miss Ruby Ferguson, who was the recipient of many useful gifts.

Last Saturday saw the solemnization of the marriage of Miss Bertha Petry and Mr. Glen Huettelheuser at the home of the bride's mother. After the wedding the happy couple left on a motor trip. (Complete story of this wedding will be found below.)

Master Harold Miller, cut his foot rather badly last week and had to have stitches put in to close the wound.

Mr. Chris Riss, Sr., was on the sick list last week but is now up again.

Olaf Larson was busy during the week painting the outside of his house.

High School Exams Start
High school exams started last Thursday for Grade XII and this week all other grades are starting.

W. L. Clark was a visitor in the village during the week-end of June 12 and reports his pleasure with his new occupation.

Mr. Warren visited his brother in Rocky Mountain House district last week.

We regret to report that Mrs. Waggoner, of Red Deer, was very ill last week, but latest reports indicate an improvement in her condition.

Ben Waggoner is boasting of having caught a speckled trout near the dam. These fish are rarely obtained hereabouts.

Weddings

HUEPPELHEUSER—PETRY

In a beautiful garden setting at the home of Mrs. G. W. Petry of Blackfalds, Miss Bertha Petry became the bride of Mr. Glen A. Huettelheuser on Saturday, June 18th.

The bride was lovely in a gown of white satin with a lace bolero. She carried pink rosebuds. Attending the bride were Faye Tatlock and Ava McKay, the niece of the bride, Miss Grace Petry, sister of the bride, was maid of honor.

The bridesmaids wore pink and yellow lace dresses and the maid of honor a beautiful lace dress.

The rites were solemnized under an arch of green intertwined with sweet rocket. The brother of the bride, Mr. Gordon Petry, gave his sister in marriage. Another brother, the Rev. Norman Petry of Seattle, Wash., and Rev. Hugh Fraser of Bentley, officiated at the ceremony.

Following the ceremony a dainty luncheon was served to about seventy-five guests.

Mr. and Mrs. Huettelheuser left immediately on a wedding trip which will include Banff and vicinity. After their return the bride and groom will be at home to their many friends on their farm west of Blackfalds.

PETERSEN—CREAM

The marriage of Thorvald V. Petersen and Celia Mary Cream, both of Lacombe, was solemnized at the United Church Manse on Sunday, June 19, Rev. A. L. Carr performing the ceremony.

MONTES—ADAMS

S. R. Montes and Wills M. Adams, both of Lacombe, were united in marriage on Tuesday, June 21, at the United Church Manse, Rev. A. L. Carr officiating. Witnessing the ceremony on the happy occasion were Mr. Adams, mother of the bride, and Kenneth Adams, brother of the bride, and Mrs. Kenneth Adams.

CLYDESDALE FIELD DAY
TO BE HELD JULY 5

ANNUAL PICNIC FOR
MUNICIPAL DISTRICTS

A Clydesdale Field Day to be held on Tuesday, July 5, at the Lacombe Experimental Station, is being arranged by the superintendent, F. H. Reed. One of the features of the program will be a parade of Clydesdales and Shorthorns headed by a six-horse team and Scotch pipers.

The annual basket picnic of the Central Alberta Association of Municipal Districts will be held next Saturday, June 25, at Brownlow's Landing. This yearly event has grown to be quite popular, and a large attendance is anticipated. It will start at 12 o'clock and a good program has been lined up for the occasion.

Westling

(From Our Own Correspondent)

WESTLING.—The Swedish Lutheran picnic was well attended on Saturday. The hall was crowded to capacity for the dance following the picnic.

The Chatchine Club will meet at the home of Mrs. Russell May on Thursday afternoon.

Mrs. Marskell from Edmonton is down visiting with her parents, Mr. and Mrs. Robert Haskins, for a while.

We are sorry to hear Mrs. Tees is in the Lacombe Hospital and we hope to see her around again in the near future.

Mrs. Slack of Edmonton is visiting with her daughter and son-in-law, Mr. and Mrs. Wm. Somerville, for some time.

Quite a few people attended the picture show put on in the Westling Hall last Thursday night by the Westling Twins.

Mr. and Mrs. Oscar Westling and family motored to Edmonton on Tuesday.

E. G. Boddy and Noyce motored to Edmonton last Wednesday to visit Mrs. Motley in the Misericordia hospital.

Mr. and Mrs. Axel Westling left Monday morning to motor to Minnesota, where they will stay for an indefinite period.

Mr. and Mrs. Russell and Mr. and Mrs. Jack May motored to Edmonton on Monday.

And Now It's a Cow - - With Triplets

"Twin calves are unusual and triplets are almost to three heifer calves and they're all healthy as unhard of in the bovine world. But a cow on the you can see. The whitest calf was born a week before of Fred Mitchell, near Oxford, O., gave birth before the other two.

THE WORLD AS
IT IS

It's a gay old world when you're gay.

And a glad old world when you're glad.

But whether you play Or go toiling away,

It's a sad old world when you're sad.

It's a grand old world if you're great.

And a mean old world if you're small.

It's a world full of hate For the foolish who prate Of the uselessness of it all.

It's a beautiful world to see, Or it's dismal in every zone; The thing it must be In your gloom or your glee Depends on yourself alone.

Call About a Month Later

The old commercial traveller was relating his experiences to a young man. "And don't forget, never try to sell an encyclopedia to a bride."

"And why not?"

"She always thinks her husband knows everything."

Tees Tattle Tales

By TATTLER

TEES.—A return softball game was played last Wednesday between the married stiffs and the young ladies. The stiffs took the lead and of a 28-14 score, just to show the young ladies that they need a lot of practice before they will be in condition to tackle such opposition. After the game the girls bought the treats for the men; sufficient funds for the girls were collected with the hat. The girls were without their able pitcher, Edna Ferguson, Edleen and Elsie Bravner, but felt that they had other players good enough to take the men into camp. The men are now feeling like real players and have advised the girls to take up their knitting for practice. But they have no room to talk. Saturday evening the High School boys took the men into camp by the tune of 27-19. This defeat has taken a lot of the conceit out of them, and everyone is looking forward to a revenge match.

The building boom for 1938 has got well under way around the town. Cyril Colebrook has just completed a rest room and smoke house combined, and Al Sim is busy adding on a couple of rooms to his farm residence. In addition to this E. R. Fry has had a coal and wood shed built handy to his residence.

League Baseball Games.—At the snappiest game of the season, played at Nebraska on Thursday evening between Salfwood and Nebraska, Nebraska defeated Salfwood, 2-1, with plenty of time to enjoy hotdogs and coffee served by the ladies after the game.

R. H. E. Salfwood: 001 000 000—1 3 2 Nebraska: 000 100 10x—2 3 4

Following this game, a very sloppy one was played at Tees on Sunday between Nebraska and Tees, with Nebraska winning 24-14.

R. H. E. Nebraska: 020 3 14 100—24 16 7 Tees: 210 233 012—14 20 10

Miss Bernice Bravner returned home from Livingston, Montana, last Wednesday evening after a very tiresome trip by bus and car.

WEST TAKES ON JOB OF SUPPLYING ITS OWN

How the prairie west has taken over the job of supplying its own petroleum needs is one of the most recent stories in national development and was told recently at a session of the Tariff Board.

F. G. Cottle, Chief Auditor of the Alberta Board of Public Utilities Commissioners, said that until last year the west was almost wholly dependent upon Montana for its supplies of oil. In 1936 nearly 3,500,000 barrels of oil were imported into the prairie from Montana.

Turner Valley came in as an oil field and prairie refiners discontinued Montana purchases. In 1936 they had been taking more than half of it. Today practically the only Montana oil which enters Western Canada comes in as refined products.

Readjustment to meet this sudden transformation was no small task. It called for construction of pipe lines, reductions in railway freight rates, expansion of refineries, and other activities. Producers in Turner Valley benefited by the enlarged market. Consumers over most of the prairie west benefited by sharply reduced prices for light petroleum products.

On this year's consumption of gasoline, distillate, and other petroleum fuels, they will save at least \$5,500,000.

VISIBLE WHEAT DECLINES

Visible Canadian wheat at all points was only 22,962,244 bushels on June 3rd. This includes 114 million bushels of Durum wheat. Of this total 916 million bushels were at Fort William and Port Arthur elevators, and about five million in the western country elevators.

Police Court

J. Hector and R. Morris, arrested by local police after a chase through the brush east of town recently, were sentenced in Calgary police court to 24 months and 18 months, respectively.

They were charged with theft of an automobile and miscellaneous articles, stolen throughout the south central part of Alberta.

Speeding through Lacombe streets cost a Calgary visitor fifteen dollars and costs when he appeared before Magistrate E. H. Jones Tuesday of last week. He also pleaded guilty to a charge of illegal possession of liquor and was fined twenty dollars and costs on this charge. Local police prosecuted.

W. DeFeer received a six-month suspended sentence when he appeared before Magistrate Jones Tuesday of last week. He pleaded guilty to a charge of theft of a wheelbarrow.

due to breakdowns and detours. Roadwork has commenced on the village streets, the first to get attention being Highway 81, between town and Pat Armstrong's highway. This should fill up the holes so that cars can be used in the north road leading off this street.

Mrs. Gerald Fry and son Ronnie are spending a week at Sylvan Lake, enjoying the nice cool breezes off the water.

Saturday afternoon was very quiet. Most everyone who could get away attended the Westling picnic, and after the softball game here the young folks went back to their big dance.

Mr. and Mrs. John Craik returned from Calgary on Saturday. Mrs. Craik received her discharge from Keith Sanitarium after three weeks' treatment. Her health was not as bad as at first thought. While away Mr. Craik had a small cancer removed from his lower lip that had caused him some inconvenience lately.

THE JOY OF WORK

Don't pity the man who hustles all the whole day through—But pity the other fellow who hasn't a thing to do.

Confronted with the chap who's idle, who has no "row to hoe," With no one depending on him, and nothing to make him grow. He misses the heat of living, the joy of work well done. The thrill of high achievement, and victories nobly won.

And the man who "dips in" daily, and whose bread and butter depends On his doing his very utmost, and who craves all he spends—Whose life is filled with sweetness in work as well as play, Is the one who finds completeness in every well-spent day.

His joy is in providing—through his own brawn and brain For those whose love inspires him to hustle with might and main.

That man will keep on climbing, and nothing can make him stop. For with such power behind him he's sure to reach the top. So envy the man who hustles, and needs to hustle, too; And from the man who's thankful If that man should be—XOU!

Bentley

(From Our Own Correspondent)

BENTLEY.—Mrs. C. Trimble spent the weekend at Turner Valley, where she visited Mr. Trimble, who is employed there. Mr. and Mrs. Hugh Gunn have returned from the coast and opened up their store at Aspen Beach for the summer.

Mrs. C. Johnston moved last week to Winfield, where she has taken up residence.

Mrs. E. M. Dyson is spending a two weeks' holiday at the Coast.

Robert Thorp of Grande Prairie spent a few days in Bentley last week.

Mr. and Mrs. J. McPherson, Mrs. Veekind and Mrs. Dick Sanbrook and son Arnold returned from Fort Assiniboine last week, where they visited Mr. and Mrs. Carl Weise and family.

The Hospital Auxiliary met at the home of Mrs. Glen Wright on Thursday afternoon. After the business meeting, lunch was served by the hostess.

Primary Room Holds Picnic. The Primary Room of the Bentley School, with their teacher, Miss E. Skodopole, held their picnic Friday afternoon.

Mrs. Harold Hopkins was hostess for a miscellaneous shower held in honor of Miss Lily Gyori, a bride of next month.

Miss Gyori was the recipient of many beautiful and useful gifts. She has been employed at the Bentley Hospital for the past five years, where she has made many friends, whose best wishes will go with her for the future.

The Center Valley Girls' Club held a tea and shower for Miss Georgia Cummings, whose marriage takes place soon at the home of Mrs. W. Gmuel. Miss Cummings received a large number of tea towels.

Mr. and Mrs. Nudahl and family of Windon, Minnesota, are visiting Mrs. Nudahl's mother, Grandma Holmes, and other relatives here.

Garden Club Meets. The Bentley Garden Club met on Tuesday, June 14, in the Bentley club room, with an excellent attendance. Mrs. A. Whitesell gave a most interesting talk, "Miscellaneous Items on Gardening." The next meeting will be held Tuesday, July 12.

Mr. and Mrs. Chris Sollic and Burger Johansson left for the coast recently, where they will visit Mr. Sollic's and Mr. Johansson's sisters on Vancouver Island and Seattle, and also their relatives and old school friends.

LIVESTOCK BEDDING

Straw is the bedding material for livestock almost universally used on the farm in Canada. It will absorb two to three times its weight of liquid. Feed most used as bedding will absorb about ten times its weight of liquid. Other suitable kinds of bedding for livestock are sawdust and air-dried muck and peat.

This Big Customer

HAS A
HUGE APPETITE FOR
WESTERN PRODUCE

THIS man is a composite of many thousands of Eastern industrial workers. He's a husky fellow and he burns up plenty of energy when he's busy.

It takes lots of Western food to keep him going. But when he's idle he goes off his feed so badly that even Western produce cannot tempt him.

Which is just another way of saying that an active industrial East—typified by the Automotive Industry and the industries that supply its parts and raw materials—is vital to the well-being and prosperity of the agricultural West.

More than 6,000,000 lbs. of poultry; over 50,000,000 eggs; over 20,000,000 lbs. of butter and meat, live and dressed, to the value of over \$15,000,000, were bought from the West last year by Eastern industrial payrolls. Your purchase of a Canadian-built car helps keep these payrolls active—and brings your good money back West again.

WHERE DOES ALL THE MONEY COME FROM?

MORE than four and one-half million depositors in Canada have "money in the bank."

They are satisfied to leave their money on deposit because Canada's chartered banks are ready and able to pay back promptly every cent when the depositor calls for it.

These deposits in the chartered banks total roughly \$2,262,000,000—approximately 10 per cent. of which they carry in cash—in other words Bank of Canada money or "legal tender."

Some people do not fully understand banking operations and might ask:

1. What have the banks got to represent our deposits if they do not have it all in cash?
2. How can the banks repay our deposits, over \$2,262,000,000, with the amount of cash they hold?

The answer to No. 1 is: Look at any bank balance sheet and you will see for yourself that a bank owns more than it owes. That is to say—if all of its depositors were paid off and all of its other debts paid, a balance would be left belonging to the shareholders.

That should answer your first question satisfactorily. And now for No. 2:

Look again at a bank balance sheet and you will see that in addition to the cash it holds, the bank owns assets quickly convertible into cash, or which can be used to borrow from the Bank of Canada.

Experience has taught banks the amount of cash it is necessary to carry to meet ordinary day to day demands, and also the proportion it is necessary to carry in gilt-edged quick assets which can be liquidated to meet even any extraordinary demand. Banks know that it is absurd to expect all depositors to call for their money at the same time.

That would be like saying that if everybody got sick at the same time there would not be room in the hospitals to take care of them.

Or that if everybody who travels by street car decided to travel at exactly the same hour, there would not be enough cars to carry them.

Or that if every person who carries life insurance died on the same day all the claims could not be met.

Or that if every sea were drained dry there would be no ocean liners.

Such statements are meaningless when you expose them to the cold light of common sense.

Where, then, does all the money come from? That question can best be answered by asking this one: Who owns it—and how do they get it?

Addressing ourselves to 4,740,000 depositors we answer: "This money is yours. You own it. When you call for it, you get it. When you ask any existing Canadian bank for it, do you ever fail to get it promptly?"

We ask you, too: "Do you regard your deposit as figures in a book?"

THE CHARTERED BANKS OF CANADA

Your local branch bank manager will be glad to talk banking with you. He will be glad to answer your questions, from the standpoint of his own experience.

Spring Valley

(From Our Own Correspondent)

SPRING VALLEY.—Dr. E. M. Sharpe and daughter Lillian of Lacombe were Sunday visitors at the home of Mr. and Mrs. H. O. Sims.

T. G. Tangle had as his guest last week-end Paul Madson, of the district northwest of Tees. Nicholas Grey had the misfortune to lose one of his best horses last week, due to hooves infection.

On Monday evening of this week R. Gilmore of Oregon arrived at the home of Mr. and Mrs. H. O. Sims to spend a short visit. Mr. Gilmore is a son of Mr. Sims' sister and lived near Alia as a boy.

Western Motor Sales Outstrip East

REGINA.—Outstripping the East in motor car and truck sales, and rising above foreign gaudy psychology in an amazing display of courage, Western Canada is setting the Dominion's pace toward renewed good times, in the opinion of E. J. Umphrey, assistant general sales manager, General Motors Products of Canada.

Mr. Umphrey declared here, following a meeting of General Motors district managers, that he had never been so refreshed as by the indomitable optimism of Western Canadians who need, he said, only good roads to bring them back prosperous times.

"While the automotive industry in Eastern Canada has been influenced to some extent by unfavorable roads and weather," said Mr. Umphrey, "the Western provinces have just completed a five-month period during which they have exceeded by a substantial percentage the cars for the corresponding months a year ago."

Outlook More Hopeful

"The current Western outlook is decidedly more hopeful than in recent years," he declared, "and one of the prime factors in producing this gratifying state of affairs is undoubtedly the establishment of the General Motors plant in Regina. Dealers throughout the four Western provinces have been unanimous in their high opinion of the quality of our Regina products."

"It is apparent," concluded Mr.

Aces Capture Semi-Finals

runs to stop the High School bid for victory, winning 16-12. The Cards wiped out an early lead with a six-run rally in the fourth and added four more to take a good lead going into the last inning, but could not stem the winning barrage of his in that last frame.

Even though Doug Carr stepped into two Ace pitches to blast out two long home runs in the fourth and fifth innings, and with good hitting support from the rest of the High School gang, it was not quite good enough to balance the shagging of the winners. Ten errors proved the stumbling block for the Cards.

Carr and T. Todt carried off the hitting honors each with four hits in five times at bat. Score by innings:—R H E Aces..... 10 20 138-15-16 Cards..... 100 610 301-12-15 Brooks and Beink; Minkler and Sage.

DAIRY PRODUCTION UP

Dairy production in Canada in 1937, the highest value recorded since 1890, is estimated at \$228,408,127, an increase of \$16,381,363, or 8.0 per cent on 1936.

Umphrey, "that the automotive industry in the West is leading that part of Canada toward a year of renewed confidence in the destiny of the Dominion."

The World of Wheat

By MAJOR H. L. STRANGE

Improvements to Be Made at Gull Lake

Improvements to the roads leading into the village of Gull Lake are to be made this year. It was decided at the meeting of the village council held recently. An ambitious program of road building, and the erection of a sand sidewalk from McLeod's cottage down along the road towards Fernie's, was also decided on. Work at brushing and clearing a roadway behind the cottages from P. E. McLeod's corner to Ebeling's Camp Grounds has already commenced, as the councilors decided to build a second road along this stretch. This will allow a two-way road, with a row of trees and brush in between. It was felt the present road was too narrow to make easy travelling possible.

The sidewalk along the road is to be made of two-by-fours laid down to form the sides, and the space filled with sand, and will be packed down to facilitate walking. All this work is now underway and expected to be completed shortly.

On this day also, in 1564, Shakespeare was born, and in 1616 he died. In 1850 Wordsworth died. In 1840 the Order of the Garter was instituted, and the Order of the Red Cross in 1883.

St. George's Day was first celebrated on our prairies on April 23, 1765—183 years ago—by Anthony Henday, an English youth apprenticed to the Hudson's Bay Company.

Henday held the ceremony at the junction of the Red Deer River and Tail Creek, about 16 miles West of the present town of Stettin, Alta., by, as he described it in his Journal, "Displaying my flag, by feasting, talking, drumming, etc. . . in this plentiful land."

Henday was the first white man ever to cross the Canadian prairies, or to see the Canadian Rockies. He spent the winter in trapping and hunting between the present C.P.R. line from Calgary to Edmonton, and the Red Deer River. He travelled about 1600 miles by canoe, and some 900 miles overland on foot—one of the most remarkable and adventurous journeys ever made by a lone white man.

Following factors have tended to raise price:—

Unusually large wheat purchases made by Great Britain, authorized for war reserves; moisture lacking in southern Europe; continued dry weather in Australia; Italy importing Hungarian, Yugoslavian and Czechoslovakian wheat; France authorizing Durum wheat importations; Argentine corn crop as estimated will be smallest since 1922; Turkey sells barley to Morocco and rye to Czechoslovakia.

Following factors have tended to lower price:—

Wheat seedling and corn harvesting progressively favorably in Argentina; U.S. coming winter wheat crop officially estimates at 726 million bushels; ample surface moisture in U.S. southwest; showers alleviate dryness in Algeria; United Kingdom increases wheat quota payment.

Lincoln

(From Our Own Correspondent)

LINCOLN.—A large crowd attended the dance last Friday night and the Hill Billies kept them jumping till the wee small hours. The proceeds go towards improving the ball diamond and picnic grounds. So let's see, boys, how nice the grounds can be fixed up for the annual picnic July 6.

Mr. and Mrs. Joe Ross and Jas. Spink attended the Alia Cream Pool meeting last week.

James Kinley was removed to the Lacombe Hospital last Saturday. Mr. Kinley has been in poor health for some time and his friends all join in wishing him speedy recovery.

The Lincoln ball boys were defeated by the Lacombe team last Sunday at the Iowa diamond.

Mr. and Mrs. D. Thomson from Winnipeg are visiting their friends and son George, and recently were the guests of Mr. and Mrs. H. R. Dool.

Mr. and Mrs. Les Saunders and family had dinner last Sunday with Mr. and Mrs. Art Cartwright.

Last Wednesday night, the U.F.A. Senior and U.F.A. Junior groups held their meeting in the hall, which was very well attended. The two delegates, Miss Kathleen Saunders and Wm. Ross, presented their report of the Young People's Week at the University, which was enjoyed by all.

Chicken pox has found its way

to our district, affecting the school attendance, which has been very small the last few days.

Textile Report Released

The keynote of the voluminous report that Mr. Justice Turgeon has prepared as a result of the textile inquiry is that industry has a responsibility towards its employees and the community at large beyond its natural responsibility to the shareholders who look to it for profit. This is a humanitarian point of view, of keeping with modern ideas of

capitalism and finds acceptance with progressive employers.

While disapproving of the temporary closing of Dominion Textile Company's Sherbrooke rayon mill, the incident that was the immediate cause of the textile inquiry, the Commissioner does not find that the company disregarded its wider responsibilities. On the contrary, he says: "That a company in the position of Dominion Textile Company has a responsibility to the shareholders who look to it for profit. This is a humanitarian point of view, of keeping with modern ideas of

Wheat on Ocean Passage

The supplies of wheat afloat in Europe were given at 39,880,000 bushels for last week, a decline of 2 1/2 million bushels from the previous week.

of the reasons which prompted him to reopen the Sherbrooke mill was the necessity of providing means of work for destitute employees. The same sense of responsibility is to be found in some degree of responsibility to the shareholders who look to it for profit. This is a humanitarian point of view, of keeping with modern ideas of

CANADIAN IMPLEMENTS SET A HIGH STANDARD

Canadian farms have not only demanded machines peculiar to their exacting conditions, but because of the toughness of these conditions have necessitated machines of higher quality and sturdier construction than those in use in other lands.

Meeting these conditions the Canadian farm implement maker, right from the very beginning has had to build stronger and more powerful equipment, and as a result has set an exceptionally high standard—a standard by which all implements are judged. In fact it is generally conceded that implements developed in countries outside of Canada have to undergo considerable re-designing to come up to the standard set for Canadian farmers by Canadian implement builders.

It is this reputation for high quality, dependable machines that has brought world-wide acceptance of and demand for implements bearing the name "Massey-Harris."

SAYS SUCCESS WILL BE ACHIEVED

"It is apparent that all the Canadian exporters of dressed poultry are responding to the representations of the Poultry Services, Dominion Department of Agriculture, to improve their export packs of chickens and a continuance of this policy will eventually land us at the objective we are all trying to attain," states W. A. Wilson, Animal Products Trade Commissioner for Canada in London, England, in a recent letter to the Department.

BORROWING AT THE BANK for Better Profits

FARMERS NEEDING MONEY to finance improvements which good business judgment approves, are invited to consult with our nearest branch manager.

The Bank of Montreal recognizes the need of farmers to keep their properties from becoming run-down and their equip-

ment from becoming obsolete. Borrowing to keep your farm in good working condition should be profitable; it is a constructive use of credit.

Our local branch managers are familiar with the needs of farmers in each locality. They welcome applications for loans having a constructive purpose.

A History of the Lacombe Golf and Country Club

By JACK McCAUGHERTY

(Continued From Last Week)

With improvements forging ahead rapidly, the Lacombe Golf and Country Club's sixth season was under way. Routine business held for the most part the majority of the spotlight at the sixth annual meeting, the 1938 officers were again returned to office and the interchange of playing privileges with the Red Deer Club was once more arranged. To improve the appearance and with an eye to a better course, steel markers for spot lengths and other markings were set up at the necessary spots. Bare spots on the fairways and around the greens were reseeded and flags were erected at each green.

The second Annual Tournament was staged on July 21 and 22, 1937, and a total of 37 golf enthusiasts from various points were entered. Winding up a very successful event, the tournament drew to a close with Lyman Welliver of Red Deer capturing both the qualifying round and the championship. H. V. Shaw of Edmonton took first place in the second flight.

Putting themselves in as members of the local hall of fame, J. H. Morrison, W. N. Morrison and G. T. Jackson shot hole-in-ones in that year.

Third Tournament The third Annual Tournament was held on the local course on July 15 and 16, 1932, and with 61 present, soared over the previous events in number of entrants. It was hailed a very successful event as the course was in its full beauty after preparatory work had put it in fine shape. J. Welch of Red Deer and A. Lowes of Calgary led the entry by posting low scores of 78 in the qualifying event. The prize went to the Red Deer player as Lowes failed to continue in the tournament play. J. Welch repeated his feat of the first tournament by again carrying off the championship, defeating C. L. Willis of Stettler.

In the consolation of that event, A. H. Templeton, Olds, triumphed over M. Mather, Lacombe. The second flight found F. Kersten of Wetaskiwin defeating A. McMurphy, Edmonton, while E. H. Mc-

CHIGWELL.—The Bridge Club met at the home of Mrs. A. E. Herron on Thursday last. Mrs. Herron won the prize.

Mr. and Mrs. Victor Lockerby and baby Richard left for California on Saturday for a few weeks' vacation.

Mr. and Mrs. F. A. Willson spent Saturday and Sunday at Chain Lakes, camping and fishing.

Mr. and Mrs. Cochlin and family drove to Pine Lake on Saturday and brought home a few fish.

Mr. and Mrs. A. E. Willson and family spent Sunday at the home of Mr. and Mrs. B. Butler in the Fairview district.

WHEAT PRICE FORECAST

U.S. Department of Agriculture: "The trend in domestic and foreign wheat prices is expected to be downward as adjustment is made towards the new crop basis. Some temporary strength in prices may occur as this is the time of year when crop scares and declining receipts of southern hemisphere grain in European markets may be expected."

Caugherty, Lacombe, won over H. Jarvis of Bashaw in the consolation. Third Flight: J. I. Mann, Edmonton, won from J. W. Morris of Edmonton. Consolation: H. S. Trame won from E. C. Chapman of Stettler.

Joe Welch added to his laurels of the two-day exhibition by winning the approaching and putting competition, while J. I. Mann carried off the honors for the longest drive.

Lowest Score On August 11, 1932, A. T. Lowes of Calgary posted a five-under par 67, combining a 33 and a 34 for the lowest aggregate posted on the local course to date, according to the records.

In the same season, G. T. Jackson, W. N. Morrison and Jack H. Morrison duplicated their feat of the previous year, each with a hole-in-one on the then No. 2 hole. A. H. Templeton, Olds, and A. Heicher, were other hole-in-

CHRISTIAN SCIENCE

At next Sunday Science church-

ness at Lacombe, the subject of the

Lesson-Sermon will be "Christian

Science." One of the Scriptural

quotations contained in the Les-

son-Sermon is Luke 9:1, 2, "Then

he called his twelve disciples to-

gether, and gave them power and

authority over all devils, and to

cure disease. And he sent them to

preach the kingdom of God and to

heal the sick." One of the cor-

relative passages from "Science and

Health with Key to the Scrip-

tures," by Mary Baker Eddy, is:

"The healing power of truth must

have been far anterior to the

period in which Jesus lived. It

is as ancient as the 'Ancient of

days' which lives through all

ages, and extends throughout all

space." (p. 146).

New Filling Station Opens

PILKINGTON BROS. SUPPLIED GLASS AND VARNISHES

The glass used in the new filling station is of all British manufacture, as flat glass for building purposes is not made in Canada. Pilkington Bros. (Canada) Ltd. supplied the glass in the new building, along with the paints and varnishes which go so far towards making the filling station an asset to the community.

LUMBER SUPPLIED BY ATLAS LUMBER CO.

All the cement, lumber and stucco for the building was supplied by the local branch of the Atlas Lumber Co. High-grade materials only were used in the construction of the station, built for permanence as well as for appearance.

Filling Station Is One of Most Modern In Province

Building Finished in "The Architecture Of Tomorrow"

The station is designed in the "architecture of tomorrow." P. Kemle, general contractor of Calgary, designed and erected the building, and claims that the general lines follow the latest in up-to-the-minute architecture.

Rounded corners and the absence of right angles all contribute to the fine general appearance of the building. Mr. Kemle has been a general contractor in Calgary for the past nine years. He learned his building in Europe, and has studied architecture steadily during the past ten years. In Calgary he has been awarded several contracts for large residential homes, and has done considerable work outside of the city proper.

When asked about the filling station just completed here, he stated: "I am proud of having designed and built that building. It is modern throughout, and I think Lacombe should be proud of it."

YOURS TRULY

Dear Sir: Received yours of the 19th.

And want to thank you for the offer that you made us.

We are anxious to hear more. Please write us all the details.

And we'll hasten to reply. (Of course I love you, darling. But the boss was passing by).

Lacombe's newest filling station is open for business. Building on the modern station was started in the late summer of last year, and for the past month workmen have been busily engaged in putting the finishing touches on the building. The building is situated on the highway opposite the Atlas Lumber Co. and is equipped to handle all services usually rendered by gasoline vendors.

Of interest to the farmers is the wholesale facility which the proprietors, Newton and Edgar Eliason, offer. A truck will be employed in carrying gasoline by the drum or tank to the farmers of the district. Kerosene and white gas is also carried for use in tractors.

Pennsylvania Base Oils
The new service station carries only the Pennsylvania base oils, and in gasoline offers the Texaco Fire Chief and Artic Gold lines. Car accessories, Willard batteries and Firestone tires are also to be put in as stock supplies.

In the retail end of the gasoline business, the service station has two Wayne electric gasoline pumps, the latest in pumps, along with another ten-gallon regulation pump. Underground storage in the form of tanks provides a capacity of 400 gallons. The entrances are to be gravelled and smoothed off for the convenience of the patrons.

Modern rest rooms, cool and clean, have been built into the building to make it one of the most up-to-date service stations in the Province.

EDMONTON EXHIBITION JULY 18-25

It requires seventy judges to judge the many classes at the Edmonton Exhibition, and all these, with the exception of livestock judges, will complete their work before the Exhibition opens on July 18.

Livestock entries close June 25; all other entries (except flowers and vegetables) close July 2.

Each year the prize list is revised; this year an entire new schedule was drafted for school work, which is issued separate. Many classes are included for amateurs, farm ladies, and ladies over seventy have special sections.

When sending for free prize list, mention the classes you are interested in.

SAYS STORING WILL NOT SOLVE PROBLEM

C. F. G. Raikes, European correspondent of The Northwestern Miller, suggests that a British war-time food problem cannot be solved by storing supplies in that country. He states that the Old Land must rely on her navy and her air force so that she can secure and maintain control of the seas for the transport of food and munitions in the event of war. If Great Britain lost control of the seas even a year's supply of food would be of no benefit to her people.
